## *Vertical Air Crimper*

For use with interchangeable crimper and decrimper heads.

### **Product Description:**

Light weight and easy to operate- Enables handheld semi-automatic crimping and decapping of vials and bottles with less effort

Inter-changeable jaws allow for use with a variety of sizes and types of crimp seals including 8mm, 11mm, 13mm, 13mm flip-off, 20mm and 20mm flip-off.

Pneumatic operation provides fast and dependable performance. Will not slow down or lock up, and does not continue to lose power the longer it is used.

Lightweight, and evenly balanced

Crimp pressure and intensity setting can be quickly and easily adjusted.

Crimping cycle time is adjustable between .75 seconds and 1.5 seconds, allowing faster completion of crimping job.

Corrosion resistant finishes throughout. Tool is manufactured using stainless steel and hard coated corrosion resistant plating. (Autoclave-able models also available.)
