

PowerCrimp

*The right tool, the only tool,
for fast, effortless, and
consistent crimping.*

Features

- Uses quick-change heads in a variety of sizes and styles for crimping and decapping. No tools needed to change heads
- Quick-change heads stocked in all standard sizes for crimping and decapping (special sizes available)
- Light weight design
- Operates on 40-60 PSI compressed air
- Corrosion resistant, electroless-nickel finish

Reasons To Use

- Faster crimping and decapping
- Reduces operator stress and fatigue
- Produces more consistent crimps
- Great for small production runs
- Versatile, can be used to crimp and decap
- Economical, one Power Crimp can be used for over 100 different sizes and styles
- Can be hand held or mounted in bench stand and operated with foot pedal, thus allowing the use of both hands to handle bottles

GUARANTEED – We are so confident in our Power Crimp that when used properly, under normal conditions, we guarantee them free from defect for one year from date of purchase. Within that year we will repair or replace your Power Crimp at no charge.

PowerCrimp

Accessories

The Power Crimp has a number of accessories which can be added to increase the applications that it can be used in to meet specifications of all your customers. All accessories come with either quick disconnect fittings or are designed to be removed and replaced in a matter of seconds. This keeps any down time to a minimum.

- **Power Crimp™ Stand and Foot Pedal**

Using the Power Crimp Stand and Foot Pedal allows the use of both hands to handle bottles as well as for use as a portable, versatile workstation. With quick disconnect fittings, the Power Crimp can be moved to and from the stand with ease. Use of the stand is an economic way to add to the performance and flexibility of the unit.

- **Power Crimp Stand**

The Power Crimp Stand has a sturdy marble base and an electroless-nickel plated post and support block. (P/N A10010)

Also available with plastic post and block. (P/N A10010.1)

- **Foot Pedal**

The Foot Pedal is supplied with a foot guard and hose. It also has quick disconnect fitting for ease in connecting and disconnecting. (P/N A10011)

- **Hoses**

All hoses listed come with swivel fitting and female connector for easy, fast assembly and disassembly.

- **Braided Stainless Steel Hose**

Length: 6ft. (P/N A10009)

- **Polyurethane Straight Hose**

Length: 8ft. (P/N A10008)

- **Polyurethane Self-Storing**

Length: 8ft. (P/N A10007)

- **Regulator**

This regulator is supplied with quick disconnect fitting for speed and ease of use. It comes with gauge and relief valve. (P/N A10002)

- **Air Pressure Verification Gauge**

This gauge easily mounts to the Power Crimp with a swivel fitting while the Power Crimp is in the stand. It allows the operator to monitor any changes in air pressure which may occur as the room air pressure increases and decreases. It can be rotated 360 degrees to accommodate viewing at any angle. (P/N A10013)
